From the Principal

Dear Families,

A big thank you to our families and school community for their support to safely navigate the return to school this year and the ever-changing COVID restrictions.

With restrictions continuing to be lifted we look forward to more opportunities for families to join in and allow us to continue to strengthen our family and school engagement in student learning and wellbeing.

I would also like to say a huge thank you to staff and students for their ongoing support and commitment this term. It has been very challenging at times and your resilience to adapt to the changes has been amazing.

Despite the challenges we have faced, we have finished the term in a fun way yesterday with Crazy Hair Day. The hairstyles were awesome!

I also would like to officially welcome Leeann Burnett to the APPS team. Leeann has settled into her role as Canteen Manager really well during the term and has already introduced a few new menu items such as ham and cheese croissants and jelly cups which are a big hit.

I would like to wish everyone a safe and happy Easter and holiday break and look forward to seeing everyone back at school on Monday, 2nd May.

Kind regards,
Bec Mueller

Mrs Bhanqu's Year 5/6 Class

We understand that teamwork is extremely important wherever we go. We constantly join in group activities and respect everyone's point of view.

We are working very hard to improve our writing skills. Every Thursday we participate in Big Write, where we write about the topic given to us. We also edit our work and set goals for improvement.

Why adults should be allowed to play online games
In my point of view, young adults shouldn't be allowed to play online games because it's bad for their eyes. Why? Well, too much screen time can damage your eye sight. If you stare at a bright screen for long time when you look away everything will not look bright. Your eye sight will be very poor. Second, while you play game, you don't get any sleep when you go to school you'll get bad grades and you won't concentrate properly. And you'll get less time to do your homework. Thirdly, if your bored don't play game, improve in your reading. What would you do? Well, what would you do? Well, instead of playing game spend time with your family. Friends want to spend time with them instead of growing distant. Playing game have more fun with the people you love. You are about instead of a
